Reach a new level of productivity without ever leaving the ground.

No ladder. No scaffolding. No scissor lift. No spotter
or the wasted labor that goes with it. No hassle.

When it comes to installing or replacing acoustical ceiling tile (ACT), there's the status quo. And then there's ACTup™, a game-changing tool from Grabber that allows you to reach the ceiling directly from the ground, making ACT installation quick, easy, and safe, making you and your crew more productive in the process.

Key Features:

- The tool reaches the ceiling while you stay grounded on the floor
- Makes ACT installation safer
- Lightweight design
- Compatible with ACME-threaded extension poles
- Great for occupied spaces
- Easy-to-use

GRABBER
Construction Products

grabberpro.com

Easy to learn. Easy to use. Easy to say goodbye to the ladder.

If it looks simple, that's because it is. Just screw ACTup onto any standard 3/4 in. ACME-threaded extension pole. Choose your installation attachments based on the type of ACT you're installing: Grip Pins securely hold rough-textured tiles, while Surface-Safe Foam Pads protect smooth, fine-textured finishes. Pins also add extra holding power for higher-ceiling installs. Securely position the tile face on the grip pins or surface-safe foam pad. If you've got ten minutes, you've got more than enough time to learn how to use ACTup.

ACTKIT

You supply the locking extension pole, the ACTKIT comes with everything else you need to use the tool.

KIT INCLUDES:

ACTup™ TOOL

STORAGE BAG

Installation Attachments:

ACT1PIN
1 in. grip pins (12 pack)

ACT38PIN
3/8 in. grip pins (12 pack)

ACT3PAD
3 in. surface-safe foam pads (4 pack)
